

## International Academic Fellowships 2017

### SCIENCES

**Professor Jens Eggers**

*University of Bristol*

Microfluidics: fundamental problems and applications

£37,959

**Dr Kyle Dexter**

*University of Edinburgh*

Relative influence of environment vs. tree species on forest ecosystem function

£38,810

**Dr Elliot Freeman**

*City, University of London*

Individual differences in perceptual synchronisation

£6,938

**Professor Gideon Henderson**

*University of Oxford*

Unlocking understanding of soil processes with new geochemical tools

£36,857

**Professor Frank Keller**

*University of Edinburgh*

Eye-tracking for knowledge acquisition in language and vision

£33,020

**Dr Andrew MacColl**

*University of Nottingham*

Genome analysis for evolutionary ecology

£37,809

**Professor Peter Symonds**

*University of Manchester*

New contexts for representation theory

£24,596

### HUMANITIES

**Dr Mark Jago**

*University of Nottingham*

Developing truthmaker semantics

£26,980

**Dr Catherine Jones**

*University of Aberdeen*

Historiography of anatomy in the northern European Atlantic world, c.1650–c.1800

£27,349

**Professor Graham Mort**
