Logo colours

Wherever possible the Leverhulme Trust logo must appear in our primary brand colour: Leverhulme blue – Pantone 540 and its CMYK and RGB equivalents (see page 6).

However, there are circumstances where the accurate reproduction of the logo in Leverhulme blue is not possible. These include print media where only black ink is available, e.g. press advertisements, black and white laser printing.

In these circumstances, the use of the Leverhulme Trust logo in black is permitted. However, please make sure to use the specific black version of the logo. If you use the blue version, you may end up with a half-tone grey.

Pantone ink, CMYK and black-only artwork versions of our logo are all available.
