

Major Research Fellowships Report instructions

Annual report

The following items are required no later than one month after the end of the grant year:

- A statement of expenditure on headed paper countersigned by a finance officer of the institution, showing the amount spent in the grant year for each item in the budget, together with sufficient information on the remuneration component to enable the expenditure to be verified. This should be emailed to grants@leverhulme.ac.uk quoting the grant reference number.
- A progress report describing in about 2,000 words the research conducted by the Major Research Fellow and other academic, administrative and professional activities. Any revisions to the original schedule of research should also be detailed. The report should include a list of publications in print and in preparation. This should be uploaded by the grant holder on the Leverhulme Grants Management System – please see the instructions at the end of this document.

Final report

Three items are required no later than two months after the grant comes to an end:

- A statement of expenditure on headed paper countersigned by a finance officer of the institution, showing the amount spent in the final grant year (i.e. not cumulative) for each item in the budget as originally detailed in the full application, together with sufficient information on each component to enable the expenditure to be verified. This should be emailed to grants@leverhulme.ac.uk quoting the grant reference number.
- The following two reports should be uploaded by the grant holder on the Leverhulme Grants Management System – please see the instructions at the end of this document.
 1. A detailed final report of approximately 5,000 words. It should be arranged under the following headings:
 - a. Objectives: a brief statement of the original aims of the Fellowship.
 - b. Research activity: specifics of the research undertaken, including sources and/or methods used, problems encountered or changes.

- c. Publications and other outputs: list actual and prospective publications and other means of disseminating the results, such as seminars, lectures, etc. If a monograph was planned, include the publisher and publication date, if known. Copies of publications arising from the research, containing a suitable acknowledgement of Leverhulme support, should be uploaded to the Leverhulme Grants Management System by following the instructions provided at the end of this document, with the exception of monographs, which should be sent to the Trust office when published.
2. In addition to the detailed final report (described above), the Trust Board wishes to see a brief summary of the project and its outcomes. This should be no more than 500 words. It should be quite general in tone, and should be aimed at non-specialist readers. The summary should be organised into four concise sections:
 - a. the original aims and objectives
 - b. research activity: specifics of research undertaken, sources used, methods
 - c. publications and other outputs.
