AWARDS MADE IN 2006

Direct awards

Awards made directly by the Trustees. The number in parentheses after the amount of the award is its duration in months.

RESEARCH PROGRAMME GRANTS

Goldsmiths' College, University of London
Professor James Curran

Goldsmiths Spaces of the Media Research Programme £1,248,029 (60)

University of Cambridge
Dr Andrew Balmford

Valuing the Arc: linking science with stakeholders to sustain natural capital £1,249,467 (60)

LARGE SPECIAL ALLOCATIONS (POT OF GOLD)

Economics, business studies, industrial relations

University of Nottingham
Professor David Greenaway

Surviving and Succeeding in a G - World: China and World Economy Enterprise Strategies & Workplace £1,504,123 (72)

University of Bristol
Professor Simon Burgess

Economics of Social Networks £993,460 (48)

Humanities

University of Aberdeen
Professor Kevin J Edwards

Footprints on the edge of Thule: Landscapes of Norse-indigenous interaction £999,808 (48)

Natural History Museum
Professor Chris Stringer

Ancient Britain and its european context £999,000 (39)

Social studies (incl. anthropology, geography, social psychology)

University of Edinburgh
Professor David McCrone

National identity, citizenship and social inclusion £794,618 (48)

Cardiff University
Professor Nick Pidgeon

Framing Energy Futures: public Perceptions and Risk £1,008,160 (48)

SPECIAL INITIATIVES

Basic sciences

University of Cambridge
Professor Harry Elderfield

Symposium 2007 £232,428 (12)

Royal Institution of Great Britain
Baroness Susan Greenfield

Royal Institute Christmas Lecture 2006 £200,000 (12)

Economics, business studies, industrial relations

Academies/Society network 2006

Evening Symposium/Debate £10,000 (12)

TECHNOLOGY TRANSFER

University of Twente
Mrs Miriam Luizink

Lithium Capillary Electrophoresis £50,000 (24)

RESEARCH PROJECT GRANTS

Applied sciences (including architecture)

Cardiff University
Professor Feodor M Borodich

Adhesive interactions between particles and surfaces at micro/nanometre scales £110,334 (36)

Imperial College London
Professor Neil McNeil Alford

Active substrate approach for switchable multiferroic thin films £149,179 (36)

University of Manchester <i>Dr Keith N White</i>	Aluminium bioavailability and toxicity in the freshwater food chain at neutral pH	£130,256	(36)
Deafax <i>Ms Helen C Lansdown</i>	Significance of ICT on reading, writing and communications skills of deaf people	£94,791	(30)
University of Bristol <i>Dr Peter John Barham</i>	Automated recognition system for African penguins on Robben Island	£159,415	(36)
Cardiff University <i>Dr Saeid Sanei</i>	Hybrid factorisation - BSS approach for BCI	£36,350	(24)
City University <i>Dr Qingwei Ma</i>	Numerically modelling and investigating wind effects on freak waves	£78,059	(24)
University of Bristol <i>Dr Majid Mirmehdi</i>	Prior-independent shape regularisation for geometric active contours	£63,022	(24)
University College London <i>Professor Mohan J Edirisinghe</i>	Deposition of novel microstructures by electrohydrodynamic co-axial jetting	£144,969	(36)
University of Manchester <i>Dr Aline F Miller</i>	Characterising and screening of novel self assembled biomaterials	£111,660	(36)
King's College London <i>Professor Michael Yianneskis</i>	Rouleaux formation: study of the fluid mechanics of red blood cell aggregation	£44,915	(29)
University of Oxford <i>Professor Samson Abramsky</i>	Where quantum meets classical: foundational structures and their ramifications	£70,475	(36)
Basic sciences			
University of Bristol <i>Professor R S J Sparks</i>	The mechanics, dynamics and differentiation of sills intrusions	£430,441	(60)
Open University <i>Professor Charles Seaton Cockell</i>	Investigations on micro-organisms that colonise and metabolise volcanic rocks	£124,042	(36)
University of Portsmouth <i>Dr Gordon James Watson</i>	Reducing the impact of the marine ornamental trade: propagation of fan worms by regeneration	£59,358	(36)
University of Manchester <i>Dr Robert James Lucas</i>	Employing a mammalian photopigment to dissect <i>Drosophila</i> behaviour	£106,444	(36)
University of Cambridge <i>Dr Sophie E Jackson</i>	A tangled problem: how does a knotted protein fold?	£112,767	(36)
Royal Holloway, University of London <i>Professor James Rose</i>	Testing the case for MIS 6 age Scandinavian sources ice sheet in eastern England	£131,529	(36)
University of Manchester <i>Dr Simon John Webb</i>	Vesicle films: a new type of biomaterial	£76,155	(24)
University of Birmingham <i>Dr Paul J Flavell</i>	Automorphisms of finite groups	£116,658	(36)
University of Sussex <i>Dr Margaret Caroline Pilkington</i>	Integrating history and ecology to sustain a living landscape	£50,088	(24)
University of Bristol <i>Professor Nigel R Franks</i>	Genetic diversity & extinction risk of army ant	£147,352	(36)

University of Leeds <i>Dr Keith Charles Hamer</i>	Impacts of perturbation on the trophic structure of tropical rain forests	£131,579	(36)
University of Exeter <i>Dr John Love</i>	Engineering fluorescent hormone biosensors for living plants and animals	£61,156	(18)
University of Manchester <i>Dr Isabelle Blanchette</i>	The effect of emotion on logical reasoning: physiological and cognitive factors	£44,813	(18)
Imperial College London <i>Professor John Edward Harries</i>	Spectral signatures of cloud and water vapour climate feedback	£146,616	(30)
University of Oxford <i>Dr Carmen Domene</i>	Insights into K-channel gating using metadynamics	£76,146	(24)
University College London <i>Professor Jonathan Tennyson</i>	An opacity function for ammonia	£59,480	(36)
University of Southampton <i>Dr Christian Kaiser</i>	The birth and evolution of supermassive black holes in the centres of galaxies	£52,292	(36)
University of Wales, Aberystwyth <i>Dr Dylan Gwynn-Jones</i>	The environmental sustainability of British bioscience	£52,025	(24)
University of Sheffield <i>Dr Rhonda R Snook</i>	Understanding fertilization by integrating biology and computer science	£163,585	(36)
University of Bath <i>Dr Alain Nogaret</i>	Artificial ion channels and active spiking neuron in semiconductor nanostructure	£95,265	(24)
University of East Anglia <i>Dr Rebecca J M Goss</i>	Coercing nature to produce new halogenated 'natural' products	£93,898	(24)
University of Warwick <i>Dr Alessandro Troisi</i>	The emergence of order in molecular self-organisation: an 'agent-based' view	£116,266	(36)
Cardiff University <i>Dr A John Morgan</i>	Evolutionary dynamics of biological sentinels: a multi-disciplinary approach	£197,798	(36)
Heriot-Watt University <i>Professor Jim Howie</i>	Makanin-Razborov algorithms for hyperbolic groups	£53,820	(36)
Cardiff University <i>Dr J Huw Davies</i>	Modelling of mantle convection	£97,679	(36)
Imperial College London <i>Dr Eleanor J Milner-Gulland</i>	Optimising monitoring as a conservation tool	£192,386	(36)
Newcastle University <i>Professor Robert C Upstill-Goddard</i>	Trace gases in tropical coastal zones	£124,887	(36)
University of East Anglia <i>Professor Peter S Liss</i>	Marine ecosystems in an elevated CO2 world	£156,883	(24)
University of Dundee <i>Dr Claire Halpin</i>	Towards gene targeting in higher plants	£135,545	(36)
University of Liverpool <i>Dr Mike P Speed</i>	Development of novel molecular tools for the study of sperm usage in insects	£125,378	(36)
University of Leeds <i>Professor Dave Gubbins</i>	Influence of the turbulence on geomagnetic morphology and time variations	£112,252	(36)
University of Bath <i>Dr John Stephen Fossey</i>	Installation and application of chiral at nitrogen compounds	£96,737	(24)

University of East Anglia <i>Professor Katrina Brown</i>	Resilience of coastal socio-ecological systems to climate change in East Africa	£122,300	(36)
Newcastle University <i>Dr John C Bythell</i>	Mucin gene expression in cnidarians - one of the basal metazoan animal phyla	£181,042	(36)
Royal Holloway, University of London <i>Professor Zhaohui Luo</i>	Type-theoretic foundation of maths pluralism	£56,235	(36)
University of Durham <i>Professor Patrick Edward Dorey</i>	Applications of integrability to quantum field theory and string theory	£126,505	(36)
University of Bristol <i>Dr Ian S Penton-Voak</i>	Cross-cultural investigations of strategic face preferences in humans	£60,340	(36)
University of Glasgow <i>Dr Ian Douglas Pulford</i>	Quantification of natural attenuation by organic soil on metal-contaminated land	£111,017	(36)
Queen Mary, University of London <i>Professor Reza Tavakol</i>	Interaction between rotation, convection and magnetic fields in the sun and solar-type stars	£126,064	(36)
University of Aberdeen <i>Professor Ursula F M Witte</i>	The role of micronutrient availability for deep-sea carbon cycling	£124,635	(36)
University of Leeds <i>Dr David G Adams</i>	AFM study of the surface of live bacteria and a novel molecular motor	£207,966	(36)
University of Warwick <i>Dr Rudolf A Roemer</i>	Charge transport in DNA, interaction and finite-temperature effects	£129,566	(36)
University of Bristol <i>Professor Paula J Booth</i>	Novel triggers of membrane protein folding	£173,379	(36)
Imperial College London <i>Professor Robin J Leatherbarrow</i>	Mapping the Myristome: A tagging-by-substrate	£97,218	(24)
University of Birmingham <i>Professor Laura Jane Violet Piddock</i>	Natural product inhibitors of multi-drug resistance in foodborne bacteria	£128,013	(18)
Liverpool School of Tropical Medicine <i>Dr Giancarlo A Biagini</i>	A new drug target against malaria	£140,521	(36)
Imperial College London <i>Dr Matthew Charles Fisher</i>	Fungal evolution in a heterogeneous world	£139,105	(36)
University of Oxford <i>Dr Katherine Jane Willis</i>	Legacies of human management of a cultural landscape in Western Ghats, India	£111,222	(36)
Manchester Metropolitan University <i>Dr Christopher Thomas Perry</i>	Tropical carbonate sediment records of environmental and sea-level change	£90,424	(30)
University of York <i>Professor Sandra Leah Baldauf</i>	Molecular phylogeny of Amoebozoa and the early evolution of eukaryotes	£248,812	(36)
University of Glasgow <i>Dr Daniel Thomas Haydon</i>	Controlling infectious disease in wildlife populations	£125,023	(36)
University College London <i>Professor Alan Johnston</i>	Vision based mechanisms of time perception	£181,086	(36)
Queen Mary, University of London <i>Dr Robert J Knell</i>	Horns and hormones: immunity in a sexually selected insect	£134,662	(36)

University of Southampton <i>Professor Mark T Weller</i>	Natural and synthetic porous beryllate frameworks	£84,487	(24)
University of Plymouth <i>Dr Katherine Anne Sloman</i>	Parental care in <i>Symphysodon</i> : a new model for parent-offspring conflict theory?	£136,960	(36)
Open University <i>Dr Rachael James</i>	Evolution of the solar system: clues from lithium isotopes	£114,190	(36)
University of York <i>Dr Jason M Lynam</i>	Tuneable metal complexes as therapeutic carbon monoxide-releasing molecules	£109,115	(36)
Birkbeck College <i>Dr Ian Andrew Crawford</i>	Exploring the moon using spacecraft remote-sensing and sample analysis	£111,059	(36)
University of Hull <i>Dr Maria Grazia Francesconi</i>	Preparation and characterisation of novel ternary nitride-flourides	£61,764	(36)
University of Wales, Bangor <i>Dr Zewge Teklehaimanot</i>	Improved management and utilisation of Eastern Africa indigenous fruit trees	£215,000	(36)
Middlesex University <i>Professor Nigel Peter Foreman</i>	Virtual environment use in enhancing the learning of historical chronologies	£70,547	(36)
University of Cambridge <i>Dr Katharine Lewis</i>	Genetic tools to study neuronal circuit formation in Zebrafish and <i>Xenopus</i>	£119,521	(36)
University of Cambridge <i>Professor Edward John Hinch</i>	Correlated structures in granular flows: existence and role in the dynamics	£84,647	(24)
University of Bristol <i>Professor Alistair MacCulloch Hetherington</i>	Control of stomatal development by light	£42,008	(12)
Open University <i>Professor Nigel Mason</i>	Laboratory studies of astrochemical ice grains	£135,873	(36)
University of Aberdeen <i>Professor Chris Soulsby</i>	Landscape influences on patters of water movement in a large river basin	£196,668	(36)
University of St Andrews <i>Dr Stuart Conway</i>	Development of intelligent photolysis systems to study intracellular signalling	£61,872	(36)
University of Oxford <i>Dr Jason Davis</i>	Monitoring interfacial bioelectrochemistry using a FRET switch	£162,166	(36)
University of Wales, Aberystwyth <i>Professor John Z Barrett</i>	Determination of protein-protein interactions by ellipsometric imaging	£72,905	(24)
Cardiff University <i>Professor Graham John Hutchings</i>	Selective alkane oxidation using gold	£99,350	(36)
University of Cambridge <i>Dr Niels Hovius</i>	Towards prediction of patterns and rates of earthquake triggered landsliding	£68,857	(24)
University of Sheffield <i>Dr Gareth K Phoenix</i>	Impacts of extreme winter warming in the Arctic	£120,480	(36)
University of Wales, Swansea <i>Dr Niels Madsen</i>	Plasma control techniques used to facilitate trapping of cold antihydrogen	£228,132	(36)
Royal Holloway, University of London <i>Professor Johannes M Zanker</i>	A simple explanation of illusory motion experience in op art paintings	£38,362	(12)

University of East Anglia <i>Professor Keith R Briffa</i>	Process-based methods in the interpretation of tree-growth/climate relationships	£123,789	(36)
University College London <i>Dr Ian John Ford</i>	Effects of fluctuations on the heterogeneous nucleation of nanoparticles	£57,055	(36)
Heriot-Watt University <i>D Matthew Costen</i>	Energy flow at the transition state: mode specific reactive scattering	£108,983	(36)
University of Exeter <i>Professor G P Srivastava</i>	Vibrational and thermal properties of phononic crystals	£92,634	(36)
University of Cambridge <i>Dr Matthew Gaunt</i>	Cascade strategies for the rapid chemical synthesis of architecturally complex natural products	£111,663	(36)
Economics, business studies, industrial relations			
University of Lancaster <i>Dr Sohnke M Bartram</i>	Corporate governance, hedging and speculation of global corporations with derivatives	£36,997	(12)
London School of Economics and Political Science <i>Professor Oliver B Linton</i>	Some issues in estimation and testing with realised volatility	£85,290	(24)
Loughborough University <i>Professor Trevor Buck</i>	National culture in the 'new China': a study of foreign joint ventures in China	£39,000	(24)
University of Lancaster <i>Dr Jeremy S Busby</i>	The investigation of risk migration by a case analysis of flame retardants	£118,097	(24)
University of Oxford <i>Professor John B Knight</i>	China's remarkable economic growth: causes, mechanisms and consequences	£83,852	(21)
Gonville & Caius College <i>Dr Michelle Catherine Baddeley</i>	Neuroeconomic analyses of herding in economics and finance	£67,757	(36)
Humanities			
University of Cambridge <i>Professor Graeme W Barker</i>	From chariotry to equestrian pastoral nomadism: the evolving role of the horse	£469,940	(36)
University of Leeds <i>Professor Polychronis Tzedakis</i>	The paleo-environmental background to early human appearance in S Europe	£76,138	(24)
University of Aberdeen <i>Mr Neil G W Curtis</i>	Isotope analysis of Scottish cist skeletons for beaker typing, dating and diet	£67,729	(24)
University of Birmingham <i>Professor John Rotheram Hunter</i>	Examination of ritual & dress equipment from British early Bronze Age graves	£246,087	(36)
University of Aberdeen <i>Professor Francis Benedict Watson</i>	Gospels canonical and non-canonical: four gospels in literary context	£102,853	(36)
University of Oxford <i>D Mark Philp</i>	William Godwin's diary: reconstructing a social and political culture 1788-1836	£244,440	(36)
