AWARDS MADE IN 2008

DIRECT AWARDS

Awards made directly by the Trustees. The number in the parentheses after the amount of the award is its duration in months.

RESEARCH PROGRAMME GRANTS

Dr Alan Cromartie The University of Reading	The liberal way of war: strategy, ideology, representations	£610,874 (60)
Professor Miles Hewstone University of Oxford	Ethno-religious diversity and social trust in residential and educational settings	£1,008,235 (60)
Professor Maggi Savin-Baden Coventry University	The socio-political impact of virtual world learning on higher education	£513,310 (48)
Professor Lin Foxhall The University of Leicester	Tracing networks: craft traditions in the ancient Mediterranean and beyond	£1,729,180 (60)

SPECIAL INITIATIVES

Leverhulme-Royal Society Africa Awards	Collaborative research between African and British teams working in Ghana and Tanzania	£3,500,000
The Mandela Rhodes Foundation	Mandela Rhodes Scholarships	£2,500,000 (60)

RESEARCH PROJECT GRANTS

Applied sciences (including architecture)

Professor Charles Cockell Open University	Microorganisms in Civil Engineering	£69,953 (36)
Dr John Cunningham University of Leeds	On-chip terahertz time-domain spectroscopy of single-crystal proteins	£213,087 (36)
Dr Paul Kemp University of Southampton	Bridging the gap between fish behaviour and hydraulics	£69,282 (36)
Dr Christian Langton University of Hull	Ultrasound propagation through cancellous bone, a complex porous composite	£82,027 (24)
Dr Saeid Sanei Cardiff University	Time-frequency based particle filtering for mental fatigue analysis	£54,217 (36)
Dr Kevin Thwaites University of Sheffield	Experiential landscape: a socially responsive approach to open space analysis	£156,640 (24)
Dr Thomas J Joyce Newcastle University	Design and manufacture of a simulator for testing shoulder prostheses	£151,449 (30)

Dr Simon Harper University of Manchester	SCweb2: Senior citizens and the web 2.0	£112,187 (24)
Professor Dan Nicolau University of Liverpool	Fungal behaviour in microfluidics structures	£176,160 (36)
Professor Peter Markowich Cambridge University	Kinetic and mean field partial differential models for socio-economic processes	£222,478 (36)
Dr Susan Jobling Brunel University	Modelling and mimicking the effects of pollution from molluscs to men	£190,430 (36)
Dr Kirsty J Park University of Stirling	Assessing the effects of micro-turbines on urban wildlife	£102,182 (24)
Dr Selina Stead Newcastle University	Poverty eradication through aquaculture	£198,356 (36)
Professor Frederic Fol Leymarie Goldsmiths, University of London	Arts computing study into the process involved in sketching faces	£100,502 (36)
Dr Paul Jeffrey Cranfield University	Graph theoretic approaches to improving water service infrastructure robustness	£78,450 (24)
Basic sciences		
Dr Rosalind Allen University of Edinburgh	Self-sustaining microbial ecosystems: robustness to environmental change	£98,138 (12)
Dr Steven Allin Loughborough University	New and highly flexible routes to access novel materials	£74,860 (24)
Dr Inge Armbrrecht Universidad del Valle	Ecological services by ants in rehabilitated coal mine sites of Guajira Colombia	£12,418 (12)
Professor Mark Blamire University of Cambridge	The exchange interaction of antiferromagnetic/ferromagnetic nanocomposites	£88,810 (24)
Dr Ian Bull University of Bristol	Chemical investigation of animal digestive systems in the fossil record	£89,142 (24)
Dr Glenn Burley University of Leicester	How is RNA splicing regulated? An integrated chemical biology approach	£133,608 (36)
Dr Phillip Cassey University of Birmingham	To whom does the eggshell signal? Contrast and perception of avian eggs	£85,573 (24)
Dr David Evans Oxford Brookes University	Evidence for the LINC complex in plants	£135,990 (36)
Dr Simon Goodwin University of Sheffield	Comparing grid- and particle-based simulations	£97,636 (36)
Professor David Goulson University of Stirling	Nesting ecology of bumblebees revealed by sniffer dog detection of nests	£111,956 (36)
Dr Jim Groombridge University of Kent	MHC diversity and emerging infectious disease in parrot populations on Mauritius	£215,621 (36)
Dr Judith Hosie University of Aberdeen	Novelty-seeking, self-regulation and risky behaviour in adolescence	£78,002 (24)
Dr Eugenie Hunsicker Loughborough University	Spectral analysis, dynamics and quantum physics on noncompact manifolds	£111,941 (36)

Professor Robert Logie University of Edinburgh	Multitasking: an experimental study of the complexities of everyday cognition	£110,475	(24)
Dr Paula Mendes University of Birmingham	Smart switchable biological surfaces	£135,920	(36)
Dr Peter Nellist University of Oxford	Scanning confocal electron microscopy for 3D imaging and analysis materials	£90,272	(24)
Professor Steven Phillipps University of Bristol	Dwarf Galaxies in the Hubble Space Telescope Coma Cluster Treasury Survey	£124,606	(36)
Dr Jon Pittman University of Manchester	Evaluation of metal transporters as targets for phytoremediation in algae	£135,598	(36)
Professor David Saad Aston University	Noisy computation in Boolean functions - a statistics physics view	£135,111	(36)
Dr William Sellers University of Manchester	Size dependent energetics of bipedal locomotion: the role of elastic mechanisms	£143,145	(36)
Dr Anne Richards Birkbeck College, London	Dual routes to inattentional blindness: limited resources or inhibition?	£67,660	(18)
Dr Derek Vance University of Bristol	Using deep-sea corals to test the role of deep Southern Ocean regulating CO ₂	£161,477	(36)
Dr Landis West University of Leeds	Electrical monitoring of biostimulation to remediate subsurface contamination	£89,308	(24)
Dr Andrew Wilson University of Leeds	Orthogonal assembly of hydrogen-bonding modules for information processing	£75,595	(36)
Dr Anna Amtmann University of Glasgow	Remember last time? Stress memory and its relation to stress intolerance in plants	£223,446	(36)
Dr Evelyn Buckwar Heriot-Watt University	Investigation of stability issues for SDEs and for numerical algorithms for SDEs	£77,480	(24)
Professor Lesley Cohen Imperial College London	Defects in 2D frustrated prototype spin ice systems	£187,689	(36)
Professor Andrew Cooper University of Liverpool	Microporous organic polymers for ambient temperature gas storage	£213,495	(36)
Professor Robin Huw Crompton University of Liverpool	Pads v Claws in arboreal locomotion: mechanics of predator-prey relationships	£221,466	(36)
Professor Trevor Dale Cardiff University	Engineering protein fibres with nucleic acids	£149,391	(36)
Professor Stephen Donkin University of York	Invariant theory and applications	£134,741	(36)
Dr Walter Federle University of Cambridge	<i>Nepenthes</i> pitcher traps and counteradaptations of specialised ants	£129,212	(36)
Dr Franca Fraternali King's College London	Role of surface flexibility in protein interaction networks	£140,383	(36)
Professor Susan Gathercole University of York	The impact of training on everyday use of working memory in the classroom	£135,059	(36)
Dr Juan Antonio Valiente Kroon Queen Mary, University of London	Analysis of initial data at isotropic singularities and its evolution	£83,732	(24)

Dr Adrian Linacre University of Strathclyde	Identification of CITES in listed species in traditional East Asian medicines	£118,979 (36)
Professor Graeme D Ruxton University of Glasgow	Missing midges: a first field demonstration of predator confusion	£43,495 (12)
Dr Ari Sadnandom University of Glasgow	Ubiquitinated suppressors of plant immunity	£97,497 (24)
Dr Karl Sandeman University of Cambridge	Towards magnetic refrigeration: magentostriktion and spin states in Co-Mn-Si	£14,880 (24)
Dr Vincent Savolainen Imperial College London	Global patterns of diversification and dispersal in monocotyledonous plants	£228,709 (36)
Professor Joe Silk University of Oxford	Citizen Science : Image processing via the wisdom of crowds	£230,272 (36)
Professor David Smith University of York	Insights into chemical evolution - amplification/catalysis in gel formation	£123,370 (36)
Dr Juliet Coates University of Birmingham	Evolution of a protein family: armadillo-related genes in moss	£256,708 (36)
Dr Graeme Sarson Newcastle University	Mathematical models for the developed Neolithic	£137,960 (36)
Dr Amalia Patanè University of Nottingham	Colloidal nanocrystals for life-sciences and electronics	£139,487 (36)
Dr Jonathan Yearsley Clark University of Surrey	Morphometric herbarium image data analysis	£189,113 (36)
Dr Paul Neve University of Warwick	Experimental evolution of resistance to herbicides in <i>Chlamydomonas reinhardtii</i>	£183,962 (36)
Professor Andrew Adamatzky University of the West of England	Mould intelligence: biological amorphous robots	£228,106 (36)
Professor Simon Bending University of Bath	Hybrid spintronic devices; driven spin-charge texture in magnetic semiconductors	£209,818 (36)
Professor Timothy Birkhead University of Sheffield	The history of modern ornithology from 1920-present	£182,697 (36)
Dr Benjamin W Tatler University of Dundee	Remembering where: exploring why position memory is poor for dynamic movie sequences	£117,755 (36)
Dr Patricia Hunt Imperial College London	New ways to elucidate the electronic structure of solutes and solvents	£126,921 (36)
Professor Jacob Koella Imperial College London	On the use of microsporidians as effective and evolution-proof malaria control	£142,717 (36)
Dr John Carr University of Cambridge	Subversion of insect resistance by plant viruses: accident or targeted attack?	£150,723 (36)
Dr Stephen Alexander Rolfe University of Sheffield	Clubroot-induced gall formation	£218,075 (36)
Dr Charlotte Williams Imperial College London	New bimetallic catalysts for the copolymerisation of carbon dioxide and epoxides	£100,941 (24)
Professor John Doonan John Innes Institute	Using <i>Brachypodium</i> as a model to study adaptation, growth and evolution in grass	£154,782 (36)

Professor Alexander Shluger University College London	Multiscale modelling technique for designing organic/inorganic interfaces	£154,731 (36)
Professor John Altringham University of Leeds	Mapping migration patterns of bats using stable isotopes and genetics	£144,400 (36)
Dr Carmen Solana University of Portsmouth	Forecasting lava flow field evolution to mitigate lava invasion hazards	£63,420 (36)
Dr Nick Tomkinson Cardiff University	Organocatalytic dihydroxylation of alkenes	£85,404 (24)
Dr Mairi Knight University of Plymouth	Neutral versus functional genetic diversity: a new conservation genetic agenda	£72,990 (18)
Dr Chris Garner Nottingham Trent University	P-Chiral Phosphines: resolutions with acyl phosphines	£92,687 (24)
Dr Juliet Clare Pickering Imperial College London	Laboratory spectroscopy with applications to ancient earth-atmosphere studies	£94,090 (24)
Dr Andrew Ferguson University of Cambridge	Quantum coherence of electron spins in silicon quantum dots	£75,075 (36)
Dr Tom Sheppard University College London	A domino approach to medium ring synthesis	£71,358 (36)
Economics, business studies, industrial relations		
Dr Carlo Morelli University of Dundee	Jute and Dundee: The management of industrial decline	£128,910 (36)
Dr Kirstie Ball Open University	Taking liberties? New uses of consumer data in the UK	£166,188 (36)
Professor Alan Gregory University of Exeter	Managerial trading as an indicator of value-enhancing takeovers	£78,135 (24)
Dr Martin Weale National Institute of Economic Social Research	The effects of decision-making myopia on private provisions for retirement	£85,696 (12)
Dr Ana Marr University of Greenwich	Optimising the dual goals of microfinance: a social network analysis and simulation	£202,872 (36)
Dr Grant Pooke University of Kent	Soviet and Comintern poster archive c1919-1980: research and cataloguing project	£36,169 (12)
Fine and performing arts		
Professor David Mayer University of Manchester	James Winston and The Theatric Tourist research project	£36,470 (18)
Ms Emma Redding Trinity Laban	The identification and development of contemporary dance talent in young people	£183,917 (40)
Dr Francis Li University of Salford	Synthesized music for room acoustic measurement	£65,164 (36)
Ms Emma Redding Trinity Laban	Music & dance Science: optimizing performance potential	£54,109 (24)
Professor Nigel Llewellyn Tate	'Art School Educated': curriculum change in UK art schools 1960-2010	£468,471 (48)
Humanities		
Professor Richard Clayton Beacham	Roman Villa of Oplontis project: computer 3D modelling and associated databases	£124,974 (27)

King's College London			
Professor Matthew Hilton University of Birmingham	Non-governmental organisations in Britain, 1945-1997	£440,605	(42)
Professor Wilfred Lambert University of Birmingham	A critical edition of Mesopotamian creation myths	£73,555	(24)
Dr Paul Barry Pettitt University of Sheffield	Archaeology of the body: the performance of European Upper Palaeolithic cave art	£112,425	(36)
Dr John Strachan University of Sunderland	Consumer culture, advertising and literature in Ireland 1848-1904	£250,328	(36)
Professor Douglas Davies University of Durham	Cremation in Scotland	£236,428	(36)
